Faculty of Agriculture, Forestry and Natural Environment,
Aristotle University of Thessaloniki

&

Agrarian Technology Institute,
Peoples' Friendship University of Russia

1st Students Conference Students for Agriculture

29

1 | 2016

15:00
—
20:30

Research Dissemination Center (KEDEA)
Conference room III
3rd September, Campus AUTH

Program

Friday 29 January 2016**15:00**

Registration

15:30-16:00

Opening session

Pericles A.Mitkas, Rector, Aristotle University of Thessaloniki**Dimitrios Koveos**, Dean, Faculty of Agriculture, Forestry and Natural Environment**Peter A. Dokukin**, Vice Director of Agrarian Technology Institute of PFYR**Apostolos Apostolidis**, Head of the School of Agriculture**Theocharis Zagas**, Head of the School of Forestry and Natural Environment**A. Session: Plant Production**Chairpersons: **Elena N Pakina**, **Nikos Kouloussis****16:00-16:10****Kezimana Parfait**, Agronomy Master Program, (Supervisor Prof. M.S Gins) “Aeroponic technologies for the accelerated reproduction of the selection material received by a biotechnology method”**16:10–16:20****Chrysoula Orfanidou**, PhD student, School of Agriculture, (Supervisors Prof. Nikos Katis and Assist. Prof. Varvara Maliogka)“Transmission of Tomato chlorosis virus (ToCV) with biotype Q of *Bemisia tabaci* and evaluation of weed species as viral sources”**16:20-16:30****Martirosyan Levon**, Agronomy Master Program, (Supervisor E.V. Romanova)

“Biochemical analysis of seeds from Burundi”

16:30-16:40**Ageliki Ainalidou**, PhD student, School of Agriculture, (Supervisor Prof. Aikaterini Karamanoli)“Metabolomic and proteomic analysis revealed the influence of cytokinin-like compound CPPU (forchlorphenuron) on multiple steps of kiwifruit (*Actinidia deliciosa*) development and ripening”

- 16:40-16:50** **Quimisse Mario Guilherme**, Agronomy Master Program, (Supervisor Elena N. Pakina) “The role of 5'-untranslated region (5'-utr) in mechanism of regulation heterologous gene expression in plants”
- 16:50-17:00** **Evangelos Karagiannis**, PhD student, School of Agriculture, (Supervisor Assist. Prof. Athanasios Mollasiotis)
“Towards understanding the superficial scald development in ‘Granny Smith’ apples: a physiological and molecular approach”
- 17:00-17:10** **Igor Semenchov**, Agronomy Bachelor Program, (Supervisor Elena N. Pakina) “Cultivation of papaya plants in controlled environment”
- 17:10-17:20** **Georgios Floros**, PhD student, School of Agriculture, (Supervisor Prof. Dimitrios Koveos)
“The role of zeolite for insect control: Evaluation of zeolite lethal effects on adults of the bean weevil *Acanthoscelides obtectus* Say”
- 17:20-17:30** **Anna Kuvaeva**, Agronomy Bachelor Program, (Supervisor M.Y. Lyascko)
“Impact of organic cultivation technology on quality of tea leaves”
- 17:30-17:40** **Eftihia Samara**, MSc student, School of Agriculture, (Supervisor Assoc. Prof. Theodora Matsi).
“Effect of sewage sludge stabilized with steelmaking slag on yield and nutrients uptake of wheat and on soil properties”
- 17:40-17:50** **Shafigullin Damir**, Graduate Student in Agriculture (Supervisor E.V. Romanova)
“The estimation of the soybean population of different varieties and lines for the selection and hybridization for the European part of Russia”
- 17:50-18:30** **Coffee Break**

B. Session: New technologies and EconomyChairpersons: **M.S. Gins, Filippos Aravanopoulos**

- 18:30-18:40** **Nina Maryina**, Standardization and Metrology Master Program, (Supervisor M .V. Kochneva)
"Characteristics conformance evaluation of cheeses in the Customs union"
- 18:40-18:50** **Traianopoulou Ioanna**, MSc Student, School of Forestry and Natural Environment, (Supervisor Assoc. Professor Antonis Kokkinakis),
"The culture and the usage of Spirulina as food for people, domestic animals and fishes"
- 18:50-19:00** **Varvara Manchenko, Daria Zhykova**, Veterinary Science Bachelor Program, (Supervisor E.V. Kulikov)
"Peculiar to the game mammals and wildfowl"
- 19:00-19:10** **Dimitrios Dourvanidis**, MSc student. School of Agriculture, (Supervisors Prof. Costas Biliaderis and Assist. Prof. Thomas Moschakis,
"Microencapsulation of probiotic strains for enhanced viability by complex coacervation and subsequent ionotropic gelation"
- 19:10-19:20** **Ekaterina Batishcheva**, Land management and Cadastre Master Program. (Supervisor P.A. Dokukin)
"The accuracy's investigation of satellite geodetic control network for survey works"
- 19:20-19:30** **Alexandra Stefanidou**, PHD student, School of Forestry and Natural Environment (Supervisor Prof. John Getas)
"Fuel Type Mapping using Satellite Remote Sensing and Ancillary Geographic Data"
- 19:30-19:40** **Ermoni Maliarou**, PHD student, School of Forestry and Natural Environment (Supervisor Prof. Filippos Aravanopoulos)
"Evaluation of genetically improved fast growing species and clones for biomass production and carbon sequestration"

- 19:40-19:50** **Valentina Antonova**, Agronomy Bachelor Program, (Supervisor V.V. Vedensky)
“International cooperation on certification and agricultural production quality management between Russia and Greece
- 19:50-20:00** **Christiana Koliuska**, PHD student, School of Forestry and Natural Environment (Supervisor Prof. Zaharoula Andreopoulou)
"EU Environmental Policies and ICTs"
- 20:00-20:10** **Evanthia Kaplani and Emmanouel Partheniadis**, Graduate students, School of Agriculture, (Supervisor Prof. Olga Iakovidou)
“A business plan for the reorganization of the agrotourism enterprise "Ziogas Western City"
- 20:10-20:20** **Aristotelis Mpatzios**, Post-graduate student, School of Agriculture, (Supervisor Prof. Panagiota Sergaki)
“Do consumers care for cooperative products via short food supply chains?”
- 20:20-20:30** **Andrey Melnikov**, Graduate student in Geodesy (Supervisor V.I. Kaftan)
“Deformation precursors of strong earthquakes derived from GNSS observation”
